TGE's TOP DOWNSM Technology aligns as a strategic partner of Aon's Infrastructure Solution Technology Corner

EASTON, MARYLAND, June 21, 2019. Aon and TGE have developed a strategic alliance in the Architectural Engineering and Construction (AEC) sector for the promotion of Top DownSM technology, a proprietary building system of TGE Technology. TGE's Top DownSM technology is a partner in Aon's Infrastructure Solution [Technology Corner](#), a multi-faceted approach to raise awareness about leading construction and asset management technologies that assist their clients to reduce on-site risks through education and insurance programs.

TGE has demonstrated a reduction risk profile that assists with overall benefits to reduce on-site exposure with reduced schedule durations, the elimination of tower cranes in tall building construction, increased quality control and workers safety, and decreased overall risk portfolio exposure to client programs.

TGE provides the insurance and construction market with a technology solution that addresses its mitigation risk and reduction model and identified its positive impact on insurance policies through its implementation. TGE is pleased to partner with Aon and its team of professionals throughout its global program.

Please visit the Aon's Technology Corner for more information on [Aon Technology Corner Partner Firms](#)
